Dear Sonny:

I am writing you as I do not know where to contact See or Cum, and I want an answer right away if possible.

Will you please contact see and find out if he is going to bring The Grays here June 26th for the night game. You know you and Cum said something to me about changing the game. If you are not comming I may have a chance to get someone else, but I have to know right away. If you hold me up I may not have anyone. Please get in touch with them right away, and send me the answer.

I think we will draw good here this season. The weather has been awful, but we had 8511 for opening and 5044 last Sunday. It rained both days before the games were over.

Please help me get this date straightened out. I am enclosing a pocket schedule to show you it has been advertised already, but if you dont want to come I will try and get someone else, but I will have to know right away.

Why dont you give us a night in Washington?

Very Truly Yours
